

To who is in charge,
I am writing because the fcc wants info on what normal people think about replacing k-love with something else. I listen to k-love in the mornings on my way in to work and often times I run around town listening as well. I enjoy this station and would miss it.

I know that in Salt Lake I am in the minority being a born again Christian however this station makes a difference to many people I know. Taking this station away would leave a whole in my community.

Freedom of religion is one of the main reasons this land was settled from Europe. K-Love is a religious station that serves the public putting out positive ideas. You don't find anything negative which is rare because most stations play off the negative.

Thank you for your time,

Jason Bender

ps: I will be praying for you.
